

*The monument was dedicated on September 3, 2005 in memory of Donald Gately and all town of Norfolk veterans who died while on active duty in the service of their country in WW 1, WW 2, Korea and Vietnam. There is room on the monument for any additional casualties that may result from the war in Iraq and any other future conflicts.*

*The monument and surrounding garden is a gift of appreciation from Mr. James Gately Jr. to those who served and to those who made the supreme sacrifice so that we may live in freedom. It is a reminder as to why we are here and are able to enjoy a life of freedom in this great country. The American Legion Post 925 is ever so grateful to Mr. Gately for this most generous gift. Thank you Jim and may God Bless you and your family.*

*The monument will be lighted and open to the public 24 hours a day. We encourage you to stop by anytime, spend a little quiet time and thank those who served their country and preserved your freedom.*

*Even though the remains of the twenty four persons named on the monument are resting in various cemeteries at home and abroad, or they are MIA, this memorial park will bring them closer to home and will be their place of "HONOR"*
